

ITBU Cybersecurity Labs, Lab 15

Network Development Group

1 Readings

Review the following tools and write a *brief* description of the capabilities of each.

1. cat (UNIX command, not a feline!)
2. netcat

2 Lab Assignment

Complete Lab 00 in Ethical Hacking.

3 Instructions

Take screenshots after the following steps. You will include these in your deliverable. Please make sure that your images include your (unique) reservation number and lab name, as shown in Figure 1.

- Part 1, Step 0, Run `nc man` and include your screenshot.
- Part 1, Step 6
- Part 2, Step 9
- Part 2, Step 11
- Part 3, After Step 7, run this command and take a screen shot: `ls -al`. This lists the directory contents. Your test file should be listed.
- Part 3, Step Look at the testfile on OpenSUSE witj `cat testfile`. Take a screenshot.

4 Writeup

Conclude the assignment with a brief reflection (two or three paragraphs) of your evaluation of the usefulness of the tools, with examples of how you could use them in pursuit of either an attack or a defense of an asset.

5 Deliverable

Your deliverable consists of a document (Microsoft Word, PDF, or similar) with your description of the tools, screenshots, and reflection. Your deliverable *must include* your name, course number, lab number or name, and the date of completion. Submit your deliverable through Canvas.
